

Beaumont is the only organization in the world that offers Autodesk Moldflow simulation analysis, software training, material characterization, and software sales all under one roof.

SIMULATION ANALYSIS

Our team of Moldflow analysts all hold plastic engineering degrees. Industry leading simulation analyses and comprehensive reporting.

SOFTWARE TRAINING

Our Expert- and GM- certified instructors lead training courses for novice, intermediate, and advanced Moldflow analysts worldwide.

MATERIAL CHARACTERIZATION

We provide Gold-level material characterization tests, crucial data for conducting successful analyses using Moldflow and Helius softwares.

INSIGHT & ADVISER SOFTWARE SALES

For organizations equipped with the expertise to conduct their own Moldflow analyses, we provide software license options and support.
